

# TONUSA

## Renata

A rebirth in design from one of **Tonusa's** most popular compact bath vanities, the RENATA promises to enhance the appearance of any small space or bathroom.

RENATA maintains its predecessor's simple, sleek yet elegant lines and Italian contemporary signature; yet goes a little further in design by offering a wider 26" cast-polymer basin without sacrificing the compact profile for space efficiency.

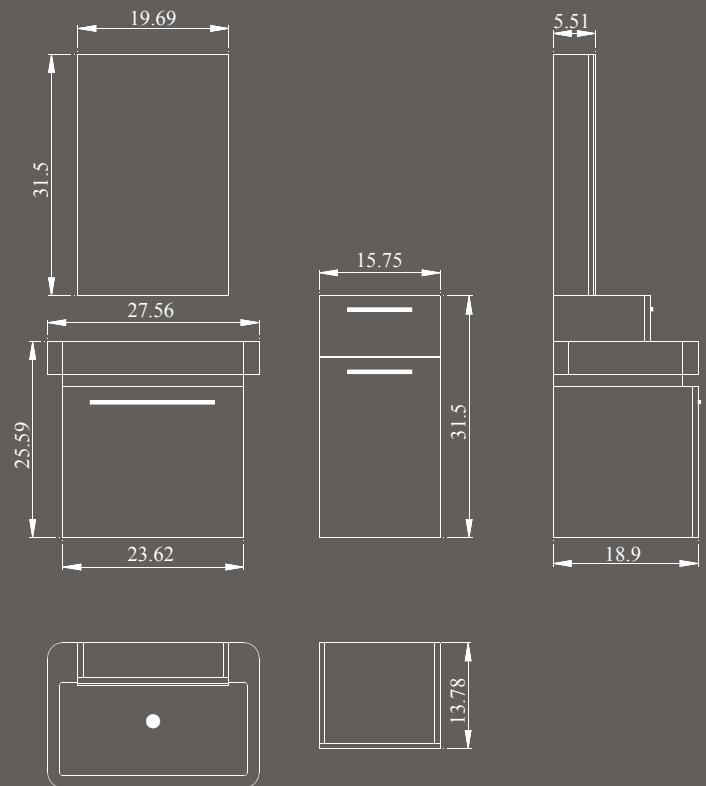

**Tonusa** has enhanced this attractive vanity set with a large main cabinet.

To provide additional storage space, the RENATA comes with a side storage cabinet with full extension top drawer and a closed compartment at the bottom.

By popular demand, a full mirror with medicine cabinet complements this compact vanity solution.

### Premium Features:

- Attractive Euro-contemporary Italian design
- Floating, space enhancing design
- High quality large cast-polymer washbasin
- Side cabinet with generous storage capacity
- Features Hettich German silent drawer runners and soft close system
- Large main cabinet
- Choice of color finishes
- Matching mirror with medicine cabinet
