

TONUSA

Urbano

The Tonusa URBANO is specially designed for the modern urban home. Sized to be a compact to medium size bath vanity set, the main cabinet is under 32 inches wide, and the side storage a mere 15 inches.

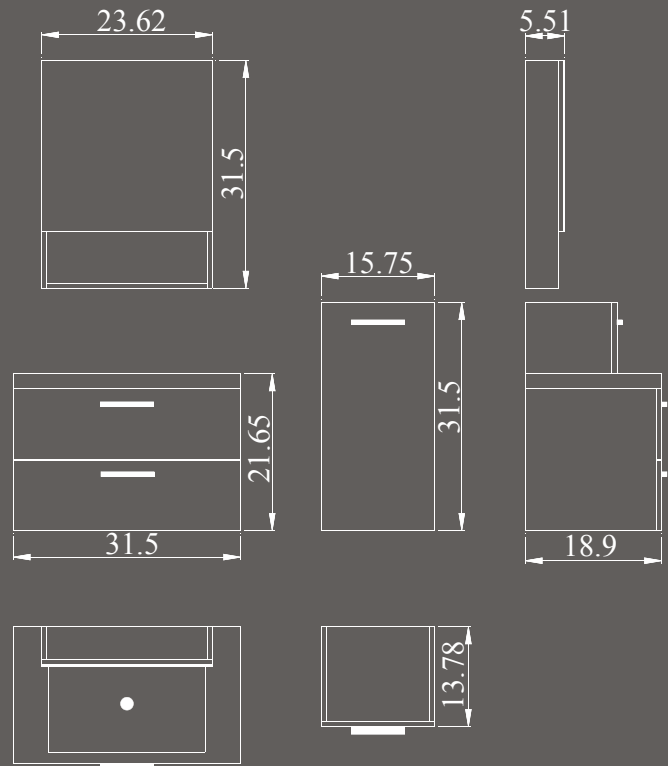

The URBANO is especially easy to fit in most small or medium bathrooms. The durable cast-polymer basin has a thin profile and incorporates the basin and vanity top into one piece. This is very stylish compared to the typical under mount sink configurations.

The URBANO offers two spacious silent and full extension drawers for storage of toiletries and personal items, and the side storage cabinet adds more room for bathroom supplies. A matching mirror with medicine cabinet and additional shelf comes standard with this vanity.

Made of the highest quality materials and finished with exquisite craftsmanship, the URBANO will surely stand out in any bathroom space.

Premium Features:
